Description

Swiss Trac Tour: Starting point for this circular route is the car park near the football grounds in Arzl. From there, follow the tarmac road in the direction of the village. At the next junction turn right. After a short uphill section you will reach Diemersteig, which is a well-prepared gravel trail through the forest to the Osterstein hamlet. The route is overall relatively flat with short uphill or downhill sections. Once you have reached Osterstein, go through the houses, up- and downhill in places. The route is well signposted. Continue in the direction of Diemersteig through the hamlet until you reach the edge of the forest. Continue past a playground until you reach another forest road and the Diemersteig. The route takes you back to the starting point.
